## Sustainability and Food Systems

## Who we are

### Quick facts

- We specialize in academic networking and field research in *sustainability and food studies*. We are dedicated to our futures and our planet.
- We design and manage faculty and student research opportunities, study abroad programs, educational tours, and research internships in Italy, Vietnam and Japan.
- GLI has extensive experience designing academic programs for more than 20 universities, and has hosted over 1,000 students.
- We are currently developing a program in South Korea and seek university and faculty partners for new programs in Asia and Africa.
- All of our activities foster critical thinking, transdisciplinary and multicultural knowledge.
- GLI supports student engagement opportunities through ethnographic projects, field studies, and language learning.
- Students acquire transformative skills for living in a multicultural world and pathways to graduate school and the jobs of the future.
- We support the UN's Sustainable Development Goals (SDG's).
- GLI works closely with many institutions and organizations in Italy including Università di Roma Tre, Università La Sapienza and ISIA Design School.
